

MUSTAFA SLATEWALLA

Program Management • Delivery Management • Portfolio Leadership

Bangalore, KA | +91-9591-990871 | mslatewalla@gmail.com

EXECUTIVE PROFILE

Strategic Program and Delivery Leader with 14+ years driving large-scale digital transformation across supply chain, legacy modernization, and e-commerce platforms. Proven success in program management and portfolio management of multi-million-dollar initiatives, leading distributed teams (20+) across geographies, and delivering measurable business impact. Strengths include resource planning, budget management, dependency management, RAID management, governance cadence, executive reporting, change management, and vendor / client management in high-complexity environments.

CORE COMPETENCIES

Program Management • Portfolio Management • Release Management • Resource Planning • Budget Management • Dependency Management • RAID Management • Governance Cadence • Executive Reporting • Delivery Excellence • Change Management • Agile Transformation • Sprint Planning • Backlog Management • Vendor / Client Management • Stakeholder Alignment • KPI / SLA & Metrics • Cloud Infrastructure (AWS / GCP)

KEY BUSINESS IMPACT

- Delivered \$12M+ in measurable business value through supply chain optimization and working capital improvement across enterprise client portfolios.
- Drove delivery excellence on legacy modernization, accelerating transformation by 30–35% and reducing manual review by 60% through structured process and change management.
- Optimized cloud infrastructure achieving \$180K+ annual savings through resource planning, capacity planning, and budget management.
- Scaled engineering delivery from 0 to 35+ personnel while maintaining operational reliability above 99% through disciplined resource planning and governance cadence.
- Improved program predictability to 95%+ through KPI/SLA tracking, RAID management, and executive reporting to senior stakeholders.

PROFESSIONAL EXPERIENCE

Agile Project Lead – Legacy Code Modernization | *Publicis Sapient, Bangalore, India* Sep 2025 – Present

- Own program management for Legacy Code Modernization with enterprise clients; lead resource planning and delivery for a cross-functional team of 8+ senior engineers and data scientists.
- Lead the process and delivery excellence function across major international clients (Mn+ LOC of code); manage client relationships, cross-team dependencies, and integration across workstreams.
- Developed an MCP-integrated agentic framework (Crew.ai) for orchestrated modernization of Java EJB and Angular systems; applied change management and process improvements that reduced delivery timelines by 30%.
- Established RAID management and a metrics framework (code quality indices, architectural debt); instituted governance cadence and executive reporting aligning technical and business stakeholders.

Delivery Lead | *3sc Solution, Bangalore, India*

Jul 2022 – Sep 2025

- Directed portfolio management of 3 large-scale Integrated Business Planning programs (\$2–5M each) for Fortune 500 clients; orchestrated 20+ distributed engineers and Product Owners across the US and Europe with budget management and resource planning.
- Implemented a KPI/SLA framework covering schedule variance, cost performance, and defect density; maintained executive reporting dashboards that achieved 95%+ project predictability.
- Executed Agile transformation across 4 engineering teams through sprint planning and backlog management, reducing delivery timeline variability by 38% and increasing sprint velocity by 27%.
- Ran governance cadence, RAID logs, and dependency management across client, vendor, and internal workstreams to protect delivery excellence on committed milestones; orchestrated supply chain optimization delivering \$12M working capital improvement and a 35% reduction in order fulfillment cycles.

Engineering Lead | *Locus.sh, Bangalore, India*

Sep 2020 – Jul 2022

- Led an 18-member engineering team delivering a Last Mile tracking platform for 500+ logistics clients; owned vendor and client delivery commitments for a system processing 50K+ daily transactions at 99.85% uptime.
- Owned release management via a CI/CD pipeline that cut deployment time from 8 hours to 45 minutes; automated testing to 78% coverage enabled daily production releases.
- Optimized AWS spend by \$180K annually through resource planning and capacity management; maintained sub-5-minute incident response.
- Reduced critical production incidents 70% year-over-year through RAID management, quality initiatives, and continuous monitoring.

Director of Engineering | *Altisource Business Solutions Pvt. Ltd, Bangalore, India*

Jul 2013 – Jun 2020

- Directed engineering for Hubzu.com and Owners.com (2M+ monthly transactions); established a delivery excellence program achieving 99.95% system reliability.
- Designed an ML-based document classification system at 92% accuracy, reducing manual processing by 55% and enabling 10x transaction volume scale.
- Led complete AWS-to-GCP cloud migration with zero downtime using structured change management; implemented multi-region DR (RPO 1 hour, RTO 4 hours).
- Established OKR-based governance cadence aligning 35+ engineers with business objectives; built the Bangalore delivery center from 0 to 35 engineers through resource planning and budget management.

EDUCATION & CERTIFICATIONS

Bachelor of Science in Electrical, Electronics & Communications Engineering | University of Mumbai

Agile Based Project Management Certification | Altisource

Supply Chain Data Analytics Certification | IIM Mumbai
